Caregiver Resources Library @ BPL

BPL is excited to announce we have added a large selection of caregiver resources to our collection thanks to Benzie Senior Resources who received a grant to create a “Caregivers’ Resource Library”. The collection contains a large selection of books and videos designed by Teepa Snow, an occupational therapist with forty years of clinical practice experience. She is one of the world’s leading educators on dementia and the care that accompanies it. In 2005, she founded Positive Approach® to Care (PAC), a company that provides dementia care training, services, and products around the world.

Lack of formal training is one of the biggest challenges of caregiving. Less than one in ten family caregivers receives training to assist older adults with disabilities, according to a U.S. study.

Douglas Durand, Benzie Senior Resources Executive Director stated, “It’s difficult for most caregivers to attend caregiving training events as they are unable to leave their loved one or find someone to stay with them. We hear quite often that even if they had someone to look after the person they are caring for, they worry and this worry interferes with one’s concentration, making it a less helpful experience to attend. So, by providing educational DVD’s and reading material this will enable them to learn at their own pace in the comfort of their own homes while still being present to care for their loved one.”

The “Caregivers’ Resource Library” will be available at the four Benzie County libraries and at the administration office of Benzie Senior Resources. A huge THANK YOU to Benzie Senior Resources for obtaining and distributing these materials. See page 4 for a list of Caregiver Resource books and DVDs now available at Benzonia Public Library.

**REMEMBERING BENZIE:**
An Oral History Project

Attention Benzie County Central School 11th and 12th grade students (and parents/guardians),
- Are you interested in making connections in your community?
- Would you like to learn new skills with audio and video production?
- Do you feel that preserving personal experiences and local history is important?
- Would you like to get paid to help make all of these things happen?

The Benzonia Public Library has an exciting opportunity to extend to a group of BC students. BPL received a grant to establish Remembering Benzie: an Oral History Project. This program will supply the technology and the training needed to collect and preserve the personal stories and recollections of our local community through stunning video histories. We need the help of 4 student interns. These students will be trained by professionals to conduct interviews that they will record, edit and upload to various platforms and databases. The students will sharpen their tech skills, but more importantly their communication skills and their abilities to connect with others.

If you, or someone you know, are interested in this opportunity and would like to learn more, please contact Amanda McLaren at benzionalibrary@gmail.com.

This project was made possible in part by the Institute of Museum and Library Services LG-27-19-0151-19.
